## WHAT'S NEW ON THE 2020 MAZDA CX-9?

[motortrend.com](http://motortrend.com)

From updated second-row captain's chairs to more prestigious features, the 2020 [CX-9](#) looks and feels fresher.

The current-generation Mazda CX-9 has been around since 2016. Based on the SkyActiv platform, the midsize crossover got a refined look thanks to the new Kodo design language, making it more premium inside and out. Like with all Mazdas, the CX-9 is one of the best-driving SUVs in its division thanks to its terse turbocharged engine and well-tuned transmission. For the 2020 model year, the CX-9 got a midcycle refresh, and that includes important updates to its interior, as well as an increase in torque.

*Captain's Chairs* - One of the biggest updates inside are the optional second-row captain's chairs, which come with a center console between them, for more comfort and luxury. The center console

## IN MEMORIAM Eileen Perez

It is with a heavy heart we said goodbye to our friend and co-worker, Eileen Perez.

Eileen was a crucial part of the Schwartz family, where she worked for the past 17 years as the Title Clerk, along with other responsibilities.

She loved cherry vanilla ice cream, ballroom dancing and bowling! Her life, though, revolved around her daughter, Jenna and her family. She loved her grandchildren and was excited about the 3<sup>rd</sup> one coming in August.

Eileen Helen Perez, 72, of Eatontown, passed away peacefully on March 5<sup>th</sup>, after a battle with lung cancer. She passed away right before our dealership was closed because of COVID-19 and we were not able to honor her accordingly.

adds cupholders and two semi-deep storages.

*More Torque* - For 2020, Mazda returned the engine in the CX-9 to make a bit more power.

The turbocharged 2.5-liter engine delivers up to 250 hp and 320 lb-ft of torque with 93 octane gasoline—a 10 lb-ft increase over the 2019 model. With 87-octane gas, the CX-9 is able to deliver 227 hp and 310-lb-ft to the front or all four wheels.

*Off-Road Traction* - With all-wheel drive, the new off-road traction assist feature replaces the traction control button to help when driving on uneven terrain. According to Mazda, when the wheels lose traction, the assist will stop reducing the torque and increase the brake on the wheels that lost traction, which would transfer power to help the CX-9 to regain its course.

*Standard Equipment* - The Sport is the base trim for the 2020 Mazda CX-9, with a

long list of standard features that make it more premium than its rivals. Front cloth seats, power driver's seat with lumbar support, 18-inch wheels, rain sensing wipers, heated outside mirrors, automatic headlights and high beams are some of the standard features in the 2020 CX-9. Apple CarPlay and Android Auto are in the Touring and Grand Touring models. In terms of safety, the Sport is also equipped with Mazda's i-Activsense features, which include radar cruise control, automatic emergency braking, collision warning, and lane departure warning with lane keep assist. Blind-spot monitoring and rear cross-traffic assist are also on the list.
